

# School Governors and Writing for the Web

Modern Governor, from Learning Pool, is a collection of manageable e-learning courses designed to help school governors develop their skills through e-learning.

Your school can choose from a bewildering range of communications technologies. And the communication isn't a one-way street. Parents, pupils and members of the public can contact your school in a lot of different ways.

Your school needs to be aware of how the Internet has changed communication channels forever. And it needs to be able to take advantage of these new ways of talking and listening.

In this course you'll discover how

- \* the Internet was invented...and what's cool about it
- \* to design web content that doesn't give your users a bad headache or web rage
- \* to write dazzling web content
- \* to use web 2.0 tools to talk AND listen (and do other great stuff)

Course Title:	School Governors and Writing for the Web
Course Duration:	2 hours
