

What do you like best about Modern Governor?

Here's what some school governors like about Modern Governor, the online e-learning resources designed just for governors.

"Given that an Ofsted inspection is usually a time of drama and tension in the school, the course helped me to increase my understanding of the and Ofsted visit in a more relaxed environment." *School Governor, Cheshire*

"A good course for all governors - I have been chair of Finance for years and even I did not know all of it."

School Governor, Wiltshire

"Having just done the Finance course run by Governor Support Services, this was a timely follow-up to what I have just learned." *School Governor, Wiltshire*

"Very relevant and very informative. I now feel ready for Ofsted."

School Governor, Cheshire

"Although I have practiced Recruitment for 3 years and attained 85% in the NCSL Safeguarding Procedures in late 2007, this course has given me an update in procedures in terms of how many teachers are employed in schools each year and how important it is for succession planning for both headteachers and governors. I thoroughly enjoyed this course." *School Governor, Tameside*

"It gave information that is required for Ofsted so that as a Governing team we can work on this ahead of our next visit which is likely to be the next academic year." *School Governor, Cheshire*

"How all the processes came together i.e. SIP, Performance Management, School Improvement Plan, Self Evaluation Form and Raiseonline. It now makes more sense how one process has a knock-on effect." *School Governor, Tameside*

"Very informative. I think governors would be reassured by this explanation of the Ofsted process. I particularly liked the case study." *School Governor, Wiltshire*

"It has made me keen to raise the (safeguarding) refresher training with my Governing body."

School Governor, Nottinghamshire

"The tests throughout the modules were a good reminder/check on understanding. There were useful parts of the text that could be utilised in HGS training booklets for school and centre based courses. Particularly liked the explanation about RAISEonline and Performance data and what Ofsted looked for when visiting school and their report content overview." *School Governor, Hampshire*
